Island-wide Implementation of New National Dengue Surveillance System (NaDSys)

As you aware that National Dengue Control Unit (NDCU) has developed a new Surveillance System with multifunctional modules to conduct dengue control activities efficiently in the country.

The inauguration of the new dengue surveillance system was done by Hon. Minister of Health on 28-06-2023 and pilot was conducted in Western Province from 17-07-2023. By now NDCU has successfully completed Island-wide training sessions by giving hands-on training to the end users of the system.

In this regard, I would like to bring your kind attention into following facts and actions to disseminate to relevant authorities under your perview.

- Implementation of New Dengue Surveillance System (NaDSys) from 08-12-2023 instead of existing DenSys System. (<https://nadsys.dengue.health.gov.lk>)

For any clarification and technical issue contact: Dr. Sunith Kumarapperuma of NDCU: 0777-673925

While thanking you for your continued support to dengue prevention and control in Sri Lanka, I would kindly request your further cooperation in this endeavour.
